Every time I think we are getting close to resolving these issues, stuff like this comes up.

Joe, given that the agenda you proposed is much briefer than we had anticipated to address neighbor concerns with the PWY, we've done our best to compile feedback and get to you in advance (attached).

As part of your and Scott's presentation please provide a response to these concerns. I appreciate this will extend the time you need, but we believe that will be a more efficient use of the meeting time.

Again, thanks for the advance work to pull together materials for a productive meeting.

P.S. We'll have some photos on a stick which we may use to project if we think it will help the discussion beyond what you and Scott present.

Also, will there be a projector available so we can reference photos. It would help the discussion.

Look forward to seeing everyone on Thursday (Sherman School at 7:00PM).

Best,
